

CHANGE IN FILE STATUS  
APPROVAL FORM

DATE January 2, 1987

CURRENT FILE NO. ACT/019/015

RECOMMENDED FILE NO. DOE/019/005

COMPANY AND MINE NAME Mineral Energy Inc., Dolor

REASON FOR CHANGE IN FILE STATUS

These BLM placer claims were originally worked by Donald Blake of Monticello, Utah. He submitted a DOE to the Division on June 21, 1977. In the fall of 1980, Mineral Energy, Inc. (MEI) bought the claims from Blake. At that time, Blake had disturbed approximately 9 of the 15 acres at the site. Numerous mounds of gravel and several large pits were reported at that time. MEI submitted a DOE in April, 1981 and followed with a MR-1 in May, 1981. A June, 1981 Division review letter was never answered. Site visits and a phone conversation with Demar Perkins, owner, verify that a mill was constructed on site and that a small portion of the area disturbed by Blake was reworked. The mill proved to be ineffective in processing the placer gravels and the operation ran out of funds. Blaine Saunders is planning to mine the adjacent property at this time (PRO/019/008) and may eventually expand onto this previously worked area.
